

## Neuroscience Seminar Series

---

**Friday, March 11<sup>th</sup>, 2016 at 11:30**

Salle des Conférences (R229)

Centre Universitaire des Saints-Pères

45 rue des Saints-Pères, 75006 Paris

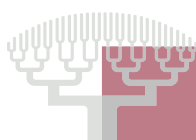

### **Pico Caroni**

*Professor of Neurobiology at the University of Basel  
Friedrich Miescher Institute for Biomedical Research*

## *Writing and consolidating memories*

*I will discuss recent, mostly unpublished work from our lab that provides evidence for the existence of two temporally defined time windows to regulate memories after learning. During the first time window new information can be added to memories, whereas during the second time window memories are long-term consolidated. I will discuss circuit, cellular and molecular mechanisms that control these critical processes in learning and memory.*

Those interested in meeting with the speaker please contact
